### Student Administering of Essential Oils

K-3

- 1) Essential Oils must be sent in to the office in an originally labeled bottle showing the name and the ingredients of the product.
  - The student's name and directions for use must also accompany the bottle.
  - A bottle will not be sent back and forth daily, so please provide a bottle that can be kept in the office.
- 2) Essential Oils must be self-administered by the student in the office.
- 3) As with other medicines, some children are allergic or have adverse reactions to Essential Oils, so please encourage your child to wash hands after application, so the Essential Oils are not transferred to other children.
